

A close-up, profile view of a man with long, dark hair and a full beard. He is wearing large, over-ear headphones with a brown leather headband and a silver-colored earcup. The earcup features a circular gauge with a yellow face and blue needle, resembling a vintage instrument. The background is softly blurred, showing a red chair and a window with light coming through.

## MONITOR OV-1

Deep, dynamic, articulate, tone-full  
These are just a few of the words that describe the OV-1. We don't throw these words around lightly here at Meters, having designed and engineered instrument amplification for some of the world's biggest bands under our Ashdown Engineering subsidiary.

We know what great tone sounds like. We also understand the importance of quality. The Meters OV-1 headphones are an over-ear design that features the latest technology with dynamic ANC function, making even the loudest environment a place of solitude.

### Technical Specification:

Type: Closed, Dynamic, ANC  
Background Noise Reduction: 82%  
Acoustic Driver : 40mm dome ANC mic  
Impedance : 32 Ohms @ 1kHz  
Frequency Response: 20Hz-20kHz  
Sensitivity : 94dB/mW  
Mic Sensitivity : -60 +/- 4dB  
Cord : 4 ft. Straight Cord  
Plug : 3.5mm Stereo Gold-Plated  
Weight: 380g (0.8Lbs)

## LISTEN OV-B

Meters OV-B are designed for listening to a great range of music not just one specific sound wirelessly; the dynamics of our custom-designed, high-definition 40mm driver enables listeners to really enjoy music again with no false or overly enhanced bass response.

Simply put, Meters will bring your music collection back to life again focusing on the important things in sound.

OV-B are Bluetooth wireless headphones designed to fit comfortably on your head for hours of wireless listening. With a 12-hour battery life they are the perfect companion for long hall flights and hours spent on tour buses around the world.

Since 1997 Ashdown Engineering has had a legitimate claim to be the world's foremost experts on bass performance creating bass guitar amplification for many of the world's greatest bands and session musicians.

Meters by Ashdown Engineering brings every ounce of that legacy to bear in design, engineering and acoustic expertise to create a unique new range of headphones that bring together lifestyle and audiophile aspirations in one incredible package.

Technical Specification:

Type: Closed, Dynamic, BT  
Acoustic Driver : 40mm dome  
Impedance : 32 Ohms @ 1kHz  
Frequency Response: 20Hz-20kHz  
Sensitivity : 94dB/mW  
Mic Sensitivity : -60 +/- 4dB  
Cord : 4 ft. Straight Cord  
Plug : 3.5mm Stereo Gold-Plated  
Weight: 380g (0.8Lbs)  
(COMING 2017)

## FEEL

In-Ear Headphones you won't lose!

The Meters Magnetics In-Ear leather ear-buds are a total design transformation from traditional ear-buds taking them to a whole new level. The add-on magnets clip the ear tips together and hang on to the back of your neck for smart, tangle-free cable management.

Meters headphones are the ultimate portable audio product for the true music lover. That's not just a spin: this fact is ingrained in the visual design of each and every pair of headphones.

### Technical Specification:

Acoustic Driver : 7mm  
Impedance : 16 Ohms  
Sensitivity : 98 +/-4dB  
Mic Sensitivity : -60 +/- 4dB  
Cord : 4 ft. Straight Cord  
Plug : 3.5mm Stereo Gold-Plated

Colour options:  
In a choice of Tan, Red or Black.

## STEREO

Sweet, stylish and dynamic. The Meters Cubed Bluetooth Home Micro Audio System by Ashdown Engineering will rumble your desktop or bookshelf. Taking live music home...

### **Designed in Britain**

With a heritage in British bass amplification, Meters Cubed are three 90mm cubes – one micro amplifier and two 2.5" high power stereo speakers at 10 watts per channel. Meters Cubed is a micro audio system like no other and utilizes Ashdown Engineering's signature VU meter, normally reserved for reading the input levels on bass guitar amplifiers.

The illuminated VU shows the music playback level status at a glance, so you don't only hear your music – you see it too!

### **Bluetooth Technology**

Spotify has never sounded so good! Bluetooth 4.0 technology allows for wireless music streaming to your smartphone, tablet, laptop, PC or Mac with reinforced audio quality. Meters Cubed also features a 3.5mm jack aux-in for use with non-Bluetooth devices too.

## B-SOCIAL

Straight out of the box, B-Social delivers signature Ashdown bass tone via a powerful 75W stereo amplifier and two custom dual concentric 5" drivers, specifically designed to deliver punchy low-end in the most compact enclosure.

### Wireless

Allowing the bassist to roam at home, B-Social features wireless audio connectivity and a transmitter that lets the bass connect wirelessly to the amp for cable free jamming.

Wireless audio connectivity also enables audio streaming from any compatible music player. Adding a new social dimension to the amp, the B-Social includes a second input so the bassist can play along with another bass player or guitarist - electric or acoustic.

### Recording

Recording itself is made simple via the built-in USB audio interface, compatible with all major DAWs on both PC and Mac platforms. The unit features a speaker mute switch for headphone monitoring.

### Connectivity

Rounding out the feature set is a Line In, Line Out and a Headphone Out for silent practice. B-Social is available in two stunning high gloss wood finishes - Black and White.
