BLUETOOTH
PREVIEW

OV-1-B HEADPHONES

Designed to move with your music, cable free

 **Bluetooth**[®]

DEEP, DYNAMIC, ARTICULATE, DETAILED, HD WIRELESS.

These are just a few of the words that describe the OV-1-B. The all NEW OV-1-B support the latest APTX-HD 48k 24bit audio streaming better than CD. One of the only pair of ANC APTX-HD supported wireless headphones on the market with 12 hours of wireless listening with ANC.

We know what great tone sounds like. We also understand the importance of quality. The Meters OV-1 headphones are an over-ear design that features the latest technology with dynamic ANC (Automatic Noise Cancelling) function, making even the loudest environment a place of solitude.

**“These headphones
are cool as F***K!”**

M-EAR-BT

In-Ear Headphones you wont lose

8 HOURS OF CABLE FREE LISTENING..

The Meters Magnetics In-Ear leather ear-buds are a total design transformation from traditional ear-buds taking them to a whole new level. The all NEW M-EAR-BT support the latest APTX-HD 48k 24bit audio streaming better than CD. One of the only pair of ANC APTX-HD supported wireless in-ear headphones on the market with 8 hours of wireless listening. The add-on magnets clip the ear tips together and hang on to the back of your neck for smart, tangle-free cable management.

Meters headphones are the ultimate portable audio product for the true music lover. That's not just a spin: this fact is ingrained in the visual design of each and every pair of headphones.

**“M-EARS HAVE
EVERYTHING
YOU WANT:
PRECISION,
CLARITY &
MUSICALITY”**

ADAM CLAYTON
U2//
